PROFESSIONAL SUMMARY

Software Engineering student with practical experience in full-stack development and distributed systems, complemented by a solid understanding of business administration frameworks. Proficient in **Java, GoLang, and Python**, with expertise in **Spring Boot, Docker, and PostgreSQL**. Committed to building scalable architectures and optimizing CI/CD workflows.

EDUCATION

Marmara University <i>BS in Computer Engineering (GPA: 3.34/4.0)</i>	Istanbul, TR 2024 – 2028
Marmara University <i>Minor in Business Administration</i>	Istanbul, TR 2025 – 2028
Universidad de Oviedo <i>Erasmus+ Exchange Student, Computer Science</i>	Oviedo, ES 2026

EXPERIENCE

Software Architecture Project (yovi_en1b) <i>Developer / Architect</i>	Academic 2026
- Engineered a multi-service platform featuring a hexagonal game engine implemented in Rust, focusing on decoupled design and maintainability. - Designed and deployed microservices architecture using Docker, ensuring scalability and high-availability across services. - Implemented GitHub Actions pipelines to automate testing and deployment workflows, adhering to arc42 documentation standards.	
Kombi Klima Shop <i>Software Developer Intern</i>	Istanbul, TR 2025
- Enhanced e-commerce backend with Java/Spring Boot, improving system performance and user-facing features. - Developed a SQL-based stock automation system, reducing manual tracking errors significantly.	

SKILLS

Programming Languages: Java, GoLang, Rust, Python, C
Spoken Languages: Turkish (Native), English (B2-C1), Spanish (A1-A2)
Frameworks & Databases: Spring Boot, REST APIs, PostgreSQL, MySQL
Tools & DevOps: Docker, Git, GitHub Actions, Linux (Bash)

LEADERSHIP & EXTRACURRICULARS

Universidad de Oviedo Basketball Team <i>Team Athlete</i>	Oviedo, Spain 2026
Represented the university in competitive matches, demonstrating cross-cultural communication, adaptability, and high discipline in a multinational sports environment.	
Marmara University Basketball Team <i>Team Athlete</i>	Istanbul, Turkey Present
Active member of the university basketball team, applying 10+ years of competitive sports discipline to agile teamwork and collaborative engineering project environments.	
Tuta — Open-Source <i>Localization Translator</i>	Remote Present
